Refer to the exhibit. How does this access list process a packet with the source address 10.1.1.1 and a destination of 192.168.10.13? • It is allowed because of the implicit deny any. • It is dropped because it does not match any of the items in the ACL. • It is allowed because line 10 of the ACL allows packets to 192.168.0.0/16.
