Hi all, I need to grab a field from a SAP page that is not editable. If you look at a post above from Rohit Mansukh Gugale August 2, 2017 at 11:45 am I'd like to read the field that says first name and not just the field where the name is typed! I have a application where I need to read several fields on a SAP page and can do so easily with editable fields but not the non-editable fields!
