### **Ctrl Shift Enter Mastering Excel**

To find the lowest value in a range of cells, use the MIN function. For example, this formula will find the lowest value in cells H2:H17 Although Excel has a SUMIF function and a COUNTIF function, there is no MINIF function. To create your own MINIF, you can combine the MIN and IF functions in an ...

What Is A UserForm. When working with VBA, you usually use the term "UserForm" to refer to dialog boxes. A UserForm is an object. This object represents a window or dialog box within Excel's User Interface. By working with the UserForm object, you can easily create custom dialog boxes. Each of these dialog boxes you create is held within an UserForm object.
