INFORMATION MANAGEMENT & TECHNOLOGY

Management (or managing) is the administration of an organization, whether it is a business, a not-for-profit organization, or government body. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of available resources, such as financial, natural ...

When a project's goals align with an organization's business strategy, the project may likely generate significant business advantages. This paper examines a empirically based, theoretical framework for aligning project management and strategic management.

Aligning project management with business strategy - PMI

Human resource management (HRM or HR) is the strategic approach to the effective management of people in an organization so that they help the business to gain a competitive advantage. It is designed to maximize employee performance in service of an employer's strategic objectives. [need quotation to verify] HR is primarily concerned with the management of people within organizations, focusing ...

Management BS | Metropolitan State University

The adaptive process requires that organizations move away from status quo. Most organizations, however, are designed as complex systems rather than complex adaptive systems (Stacey, 1995). Complex systems differ from complex adaptive systems in that they are structured for efficiency and control, rather than adaptability (Brown and Eisenhardt, 1997; Eisenhardt and Tabrizi, 1995).
