A's sexual encounter with B counts as A's rape of B, just in case (i) A is in a position to give informed consent to have penetrative sex, (ii) A knows or ought to have known that B is not in a ...

Why Agreement to Sex Is Not Consent | Psychology Today

Decision-making is a prominent theme in this edition of the Journal of Medical Ethics . Our feature article examines the relationship between trust and informed consent. Informed consent is, of course, central to the decision-making process in medicine. In addition, several articles consider decision-making in medicine from a variety of angles.

Why is informed consent important? | Journal of Medical Ethics

Seeking informed consent expresses respect for the patient as a person; it particularly respects a patient's moral right to bodily integrity, to self-determination regarding sexuality and reproductive capacities, and to support of the patient's freedom to make decisions within caring relationships.

Informed Consent - ACOG

States have developed informed consent laws to govern certain types of communication between health providers and patients. These laws list the types of information that patients must be given so they can make an informed decision about getting medical care, diagnostic tests, or treatment.

What are the legal requirements of informed consent?

Informed consent must begin with a concise and focused presentation of the key information that is most likely to assist a prospective subject or legally authorized representative in understanding the

reasons why one might or might not want to participate. This part of the consent must be organized and presented in a way that facilitates comprehension.

Informed Consent - Research & Economic Development

The panel found that the men had agreed freely to be examined and treated. However, there was no evidence that researchers had informed them of the study or its real purpose. In fact, the men had been misled and had not been given all the facts required to provide informed consent. The men were never given adequate treatment for their disease.
