Textadventure By Quelle Wikipedia

Interactive fiction, often abbreviated IF, is software simulating environments in which players use text commands to control characters and influence the environment. Works in this form can be understood as literary narratives, either in the form of Interactive narratives or Interactive narrations. These works can also be understood as a form of video game, either in the form of an adventure ...

Wikipedia: The Text Adventure - kevan.org

A text game or text-based game is an electronic game that uses a text-based user interface, that is, the user interface employs a set of encodable characters such as ASCII instead of bitmap or vector graphics. Text-based games have been well documented since at least the 1960s, when teleprinters were interlaced with mainframe computers as a form of input, where the output was printed on paper.
