

Web Based Automatic Irrigation System Using Wireless

Web Based Automatic Irrigation System

The California Irrigation Management Information System (CIMIS) is a program unit in the Water Use and Efficiency Branch, Division of Statewide Integrated Water Management, California Department of Water Resources (DWR) that manages a network of over 145 automated weather stations in California.

CIMIS

Irrigation is the application of controlled amounts of water to plants at needed intervals. Irrigation helps to grow agricultural crops, maintain landscapes, and revegetate disturbed soils in dry areas and during periods of less than average rainfall. Irrigation also has other uses in crop production, including frost protection, suppressing weed growth in grain fields and preventing soil ...

Irrigation - Wikipedia

Manage this durable outdoor irrigation controller with Hydrowise web-based software from anywhere worldwide using your smart device or web browser. Predictive watering adjusts schedules based on temperature forecast, rainfall probability, wind and humidity to provide maximum water savings while keeping your clients' landscape healthy and beautiful.

Common Questions about the Listings & Reviews Are these reviews biased? Of course! Expect that any evaluation of any product will be biased by the reviewer's own personal experiences with the product, observation of installations where the product is used, and/or the experiences related to by others.

Product Listings & Reviews - Irrigation Tutorials

"I'm not a sales rep but only a hard working contractor. I've installed every brand to find the best for my clients. The only irrigation controller that I have found to be the best for water saving, built for the technician, network support and easiest on the wallet is the Weathermatic / SmartLink network.

SmartLink Network

Get the Rain Bird SST Series 9-Zone Automatic Sprinkler Timer SST-900I, with built-in memory helps you create customizable watering schedules from The Home Depot
